- ✓ **Smaller footprint:** Without compromising performance or capacity
- ✓ **Clear lots faster:** 66% more than an employee can manually collect
- ✓ **Happy customers:** Helps ensure carts are available during peak hours
- ✓ **Decrease in injury claims:** Promotes safety by enabling associates to collect cart faster with little to no physical strain
- ✓ **Sustainable design:** Exceeds most retailer sustainability objectives

CartManager® Ultra

The Answer for Safer & Faster Cart Collection

The design of the CartManager® Ultra offers a smaller footprint without compromising performance or cart retrieval capacity.

Cart collection can be a slow and physically demanding task. Employees are commonly limited to ten or less carts at a time due to concerns over exertion, strain and possible injury. Vehicle and pedestrian traffic in parking lots present obstacles that slow down cart collection. **CartManager® Ultra is the solution for your employees to effortlessly navigate lines of carts through traffic parking lots while increasing safety and reducing labor hours.**

CartManager® Ultra

Compared to CartManager XD

- ✓ Total Weight Reduced
- ✓ Fewer Raw Materials Used
- ✓ Keyless Operations
- ✓ Longer Motor Lifespan
Brushless DC Motor
- ✓ 2 AGM Batteries*
24V Operations
- ✓ Battery Lifespan Optimization**

Automated Broadband UNLOCK Signal for SmartWheel® device CartControl® Systems

New Remote Design w/Error Code & Run Time Display
200ft (61m) Range

Keyless Operation

Front Foam Filled Wheels
12" (30.5cm)

Back Swivel Wheel
8" (20.3cm)

LED Beacon Strobe Light
High Visibility Light For Safety Awareness

Emergency Stop Button

Ergonomic Throttle Control

6 ft (2m) Charger Cord
110V and 220V/230V

LED Battery Charge Indicator

Powerful Motor with Two 12 Volt Batteries & a 104 Ahr Capacity

Back Wheel Shock Absorption

How it Works

Carts are nested together and pushed by the CartManager Ultra. Employees steer the carts from the front while using the remote control to operate the unit.

Total Weight 437 lbs (198 kg)

Speed

Forward: 0 - 3.0 mph (4.8 km/h)
Reverse: 0 - 1.5 mph (2.4 km/h)

Dimensions

Why is it great for you?

CartManager® Ultra helps your employees clear parking lots of carts faster while increasing safety and reducing labor hours. CartManager® Ultra features an automated broadband UNLOCK signal for SmartWheel® device CartControl® system that ensures fast and efficient collection of locked carts. Powered by the brushless direct current motor, employees can collect up to three times more carts while having a significantly lower risk of injury. **Labor hours associated with cart collection can be reduced by up to 50%.**
