

Get Rolling Again in Minutes

SmartWheel® Tread Kit contains a Gatekeeper Systems' quick service tread and five stainless steel tread screws used to quickly replace a worn down Gatekeeper Systems' wheel tread. The kit is used on Gatekeeper Systems' SmartWheel 2.0QS and disc-style Travelator wheels.

Product Specs	
Dimensions:	Tread: 2.64 centimeters (1.04 inches) wide, 12.85 centimeters (5.06 inches) diameter
	Screws: 1.91 centimeters (0.75 inches) long, #6-19 Trilobular thread, T15 Torx head
Form Factor:	Tread is an Ethylene Propylene Diene Terpolymer (EPDM), flat, chamfered edges
	Screws are special Trilobular thread form for plastics
Part Number	W-9940
Required Tool	#15 Torx screwdriver

Use of non-genuine parts including replacement treads will void the SmartWheel warranty.
